

HealthQRS E-Commerce Medical Marketplace Application

HealthQRS' e-commerce medical marketplace application will transform your business. The app packs a powerful punch with many layers of revolutionary features, yet on the surface appears simple because it is **so easy to use**.

The app's magic helps many different people and organizations. Patients can use it to find you, book their appointments, pay from the app and even schedule transportation. Referring providers can easily find your facility, see all of your amenities, and book their patients with you all from a phone or tablet.

Flexible and simple – yet powerful. This app truly has it all. Consumers can easily select, book and pay for services and procedures right from their phones.

App can be customized with YOUR logo, your messaging and provide information about special amenities you offer.

Our application is not a patient portal. It's so much more.

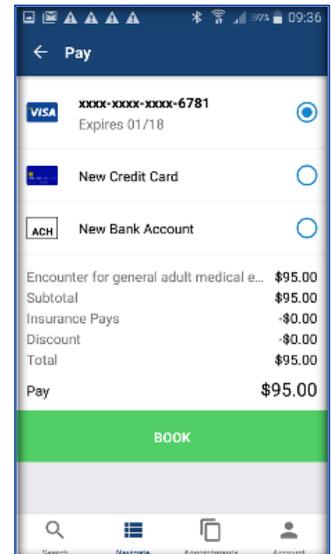

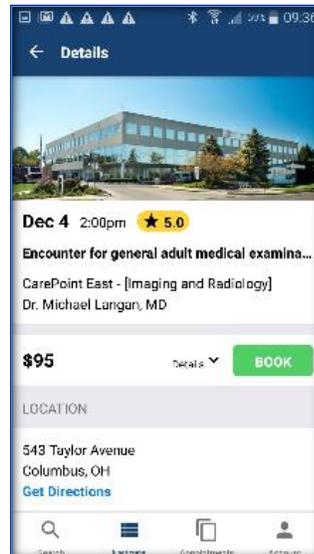

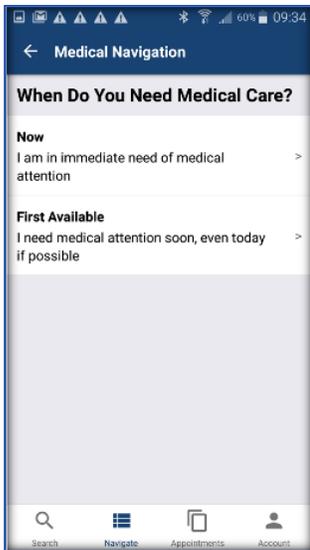

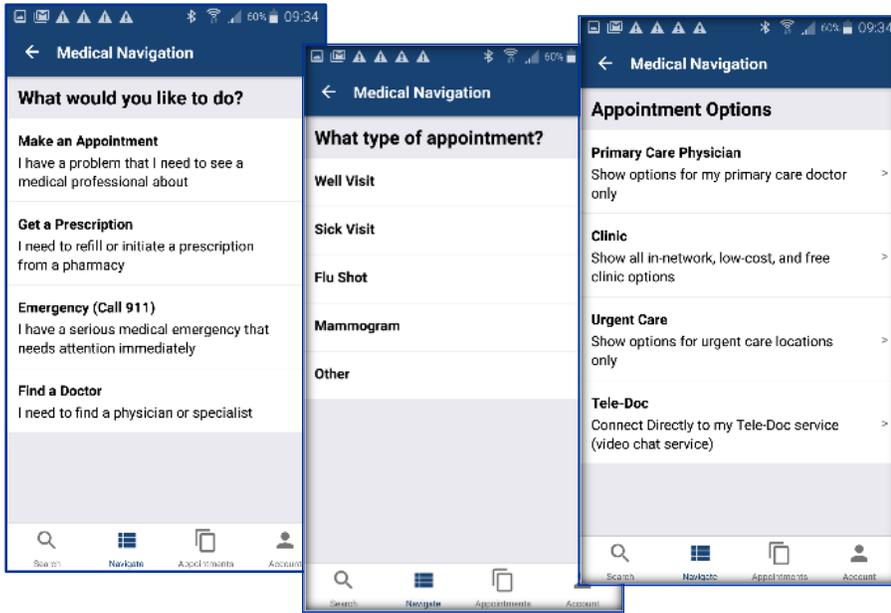

HealthQRS' medical marketplace application is a true e-commerce app for healthcare that meets consumers where they are – on their smartphones, tablets or PCs. Contact us today for a private demonstration of how this application can help you and your consumers.

Visit www.healthqrs.com for more information.

Consumers can find and book visits with their PCP as well as MRIs and everything in between. We even have telemedicine options.

In addition, the app navigates people to the highest quality, lowest cost option.

Our revolutionary platform gives consumers so much more than estimates. They see the ACTUAL price, and they can pay in full when they schedule or set up payment plans. All from their smartphones.

Ready to transform your world?

We shared a few screen shots to help you get the picture. But to really feel the power, why not try a live demonstration? We are happy to provide you with a complementary, no pressure demo.
